

ALL NOTES.

—Wizard Oil at Geo. Thaxter's.
—The schools are closed this week from lack of funds and the children find plenty of time to snow ball.

—Senator Stewart left Reno for Washington last night, the road being clear. He was accompanied by his wife. He will return about April 1st.

—Marsh, the cattle man, is in the city. He wants a bill passed to prevent scrub bulls from running at large, and so does every other intelligent cattle man.

—The Eastern Democratic papers are mad because Cleveland is kicking the Irish out of the party. This is not strange. The Democrats never did anything yet for the Irish but kick them.

—The friends of the bill for the establishment of a State Industrial School should read that part of the proposed city charter of San Francisco relative to a similar school in that city, a full text of which charter was published in Wednesday's San Francisco Chronicle.

—No other medicine is so reliable as Ayer's Cherry Pectoral for colds, coughs, and all derangements of the respiratory organs tending toward consumption. In ordinary cases it is a certain cure, and it affords sure relief for the asthmatic and consumptive, even in advanced stages of disease.

—If a well be poisoned, we be to those who drink thereat. It is worse to poison the fountain of life for one's self, and for posterity. Often by carelessness, or misfortune, or inheritance, this has been done. Ayer's Sarsaparilla frees the blood, the vital stream, and restores appetite, strength, and health.

Undignified Assaults.

There seems to be very little dignity left among the small boys of Carson. They think nothing of snowballing a State Senator, and yesterday we saw a snowball take the President of the Honorable body square in the ear. His ruling that the motion was out of order was promptly voted down by a gang of boys on the corner.

When the Governor walks abroad the snowballs fly just as thickly about him as anybody else, and there is a rumor afloat that Senator Stewart went to Washington in order to escape the juvenile snowballers. Some are so depraved that they do not even respect the person of the editor; in fact, they seem to center their attentions on the editorial fraternity.

There is one consolation—it takes a whole lot of boys to snowball the Carson editors.

Scaring the Solons.

The other day a man asked Hardesty to introduce a bill providing for a road tax, and Hardesty, with a frightened look, replied:

"Can we do it under this d— Constitution?"

Other members feel as badly scared as Hardesty. The recent decisions of the Supreme Court regarding titles of bills, etc., knocking out everything in sight, have led many of the members to believe that the Constitution prohibits everything, and they fear to frame a bill lest the Constitution will walk all over it.

A. O. U. W.

All members of Ormsby Lodge No. 4, are requested to meet at their Hall at 1 o'clock punctual on Wednesday, Feb. 16th, to attend the funeral of our deceased brother, J. H. McGuirk.

By order of the
M. W.

FOREST C. SMALL,
Recorder.

The Wild Rice Bill.

A Reno man writing to the Enterprise advocates the passage of Drury's bill to encourage wild fowl in this State by planting wild rice. The bill is an excellent one and its passage simply means a large increase in game birds in Nevada and cheap food.

John McGuirk.

John McGuirk, who died so suddenly day before yesterday, was a native of Ireland, aged 42. He leaves a wife and four children. He will be buried today under the auspices of the A. O. U. W.

A. B. 85, to construct telephone line between county jail of Ormsby and State Prison. Passed 30 to 7.

House Adjourned.

An Ormsby Salary Bill.

The officers of this county are at present working under a fee system which makes it very short pickings for some of them. When the campaign opened last Fall it was with great difficulty that competent men could be found to take places on the ticket, because of the fact that the new fee system would make the compensation ridiculously small. Men who did go on the ticket were assured that an effort would be made to have a salary bill passed which would give them reasonable pay for their services. They went on the ticket with this expectation and as the session wears away the Ormsby delegation ought to do something to give some of the county officers the salary law which has been satisfactory to the taxpayers for two years past. If the delegation is in doubt about the propriety of the proceedings let a town meeting be called where an expression of opinion can be had. Ormsby has an excellent set of officers and they ought to have at least reasonable compensation for the work.

The Lottery Question.

The California Legislature proposes to pass a lottery bill to stop the drain from the State which goes each year to New Orleans. The Bee speaking of lotteries says: It is said that a stop can easily be put to gambling in lotteries. Then why is it not done? The Constitution is strong enough on the subject, and yet one million dollars go out of the State every month to aid the Louisiana Lottery scheme. The liquor curse could be done away with if all men would stop drinking. But they will not do it. The evil of gambling would obliterate itself if all men would stop gambling. But they will not. The only way to meet these evils then is to keep them within bounds by license and regulation. Rum shops are licensed now. Why not use the same regulating measures with gambling? It will have to come to that before very long, and the sooner the better for the general interests of the State and mortality.

MISS FRIEND'S CONCERT.

The following is the programme which will be rendered at Miss Emma Friend's Concert. Programmes for circulation will not be printed, and ticket-holders are requested to cut them from the newspapers for use at the concert. We are requested to state that should the storm continue, the concert may be postponed until later in the week.

The Bullion Shipping Resolution.

Regarding Briggs' bullion shipping resolution the Silver State says: We think bullion could be shipped in these postal cars without much risk to the sender, and the fact that the charges as freight being much cheaper than the excessive charges of the express company, will tend to increase the profits of our mining companies and induce a larger production of bullion. The money paid to Wells & Fargo's express amounts to a large sum every year, to which mining companies are compelled to submit. To show the injustice which the company has shown towards Nevada; the charges for shipping bullion from Virginia City to San Francisco is the same as from the former place to Carson City. There is no fairness or justice in this discrimination against the State. The Carson Mint has to compete with the refineries of California and other drawbacks bearing upon it. The last few years the Mint has been a failure. A State that is the second bullion producing State of the Union, cannot support a Mint. This is a disjointed enigma. The present Administration has treated Nevada shamefully.

The express company claims that it makes no discrimination, but the bullion men claim that the company makes secret contracts on bullion.

The Storm.

It seemed to be a pretty well settled opinion yesterday that the storm was over, although a number of old weather sharps held that there was more to come. The air was full of tremendous stories about the big depth of snow at certain places, seventeen feet was the latest quotation from Summit Station on the C. P. R. R. No trains came through from California, and a lot of Senators and promoters were snowed up on the mountains. Snow plows are at work all along the line, and inside of 24 hours they expect to make an opening. Roadmaster Atherton is hard at work clearing the V. & T. track, but the snow along the C. & C. is said to be deeper than anywhere. Meanwhile the wires are down, and we get no news nor stock quotations from below. However, the people down there get no news from us, so that the thing is a stand off.

The Church Crazy Quilt.

At the coming Episcopal social there will be on exhibition the most attractive crazy quilt ever seen. Persons who look at it need smoked glass to shade their eyes. Twenty ladies are at work on the quilt, each making one block. They then solicit money on the blocks, and the lady getting the most takes the quilt. The proceeds go to the Church.
